

## SPRING READING GROUP

# NIETZSCHE'S *THE BIRTH OF TRAGEDY* AND *ON THE GENEALOGY OF MORALS*

In *The Birth of Tragedy* (1872), Nietzsche analyzes artistic expression, focusing on Greek tragedy. In *On The Genealogy of Morals* (1887) Nietzsche traces out the “origin of our moral prejudices,” identifying “slave morality” (exemplified by Christian values) and its opposite, “master morality” (exemplified by Ancient Greek and Roman values).

Each meeting will take place at the Center for Ethics and Entrepreneurship office on the second floor of Burpee, from 3-4 pm. There will be light refreshments. A free copy of the book will be provided to participants.
